# working with schools

#### INTRODUCTION

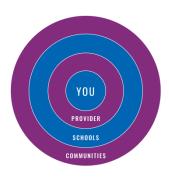

Working in partnership with schools/kura is a key part of your role. It is through the schools/kura that you will access and work with children and their families/whānau.

A key part of your role is to work with schools/kura, the children and their families/whānau. You need to do this to be able to do your job effectively:

- You need to build trusting relationships with the leaders and staff of each of your schools/kura.
- Everyone needs to be clear in their roles what they are there to do, or not do, and the SWiS social work process.
- You need to understand the school/kura environment to help schools/kura achieve educational outcomes for their children; you will help reduce barriers to children's learning achievement (some of which are social, hence this social work initiative).
- You will improve relationships between schools/kura and the families/whānau of the children you work with.
- Build and maintain a visible presence at each of the schools/kura you work with.
- Work with the schools/kura to promote the SWiS service to the children and their families/whānau.

Each school/kura you work with will be slightly different. You'll need to build up a clear picture of each school/kura so you can work effectively.

Work through this module to begin building your understanding of the different schools/kura you'll work in. If you have any questions or queries about this module, talk with your supervisor.

Resources:

Locate the resources in the list and refer to them to help complete this document:

- SWiS Toolkit
- SWiS Service Specifications
- SWiS Partnering Agreement
- Ministry of Education website (<u>www.education.govt.nz</u>)
- Te Kete Ipurangi website (<u>www.tki.org.nz</u>)
- your school(s)/kura website.

In this module there is a set of activities you'll need to work through for each school/kura (pages 4–17). The activities and the questions are the same for each school/kura. They will help you build up a file of important information for each school/kura that you can keep in your toolkit.

There are also activities in this module that you only need to do once.

Preparing for each school/kura visit

Before you visit a school/kura, you'll need to do some preparation work. This preparation work is important because it will help make each school/kura visit run smoothly.

Work through the following steps at least a day before you visit the school/kura.

- 1. Photocopy a set of activities for each of the schools/kura you work with (pages 4–17). For example, if you work with three schools/kura, you'll want at least three copies.
- 2. Read through all the activities and questions.
- Begin to answer as many of the questions as you can. You will need to do some research to find answers. You can use the suggested resources and anything else you can think of to help with your research.
- 4. Any questions you don't or can't answer, you can complete when you do your school/kura visit.
- 5. Once you've completed the activities, you can store them in your SWiS Toolkit.

Tip: You don't need to answer all the questions beforehand. There will be some you will only be able to complete when you visit the school/kura. The more you can answer before the visit, the more time you can spend looking at other things at the school/kura.

The school/kura and education system

Before you conduct a school/kura visit, it's important to have an overview of the school/kura and education system. This will help you to understand:

- the relationship between schools/kura and the Ministry of Education (MoE)
- the supports and resources available to schools/kura and their students from MoE
- the lines of accountability in a school/kura
- the role of the board of trustees
- · the philosophy of inclusion
- an overview of schools/kura and the education system.

#### **KEY PEOPLE IN THE SCHOOL/KURA**

#### (NAME OF SCHOOL/KURA)

One of the first things you need to do is get to know the people in each of your schools/kura. You'll work closely with many of them and will need to develop close relationships.

For each school/kura record the names, roles, and other information of key people you'll work with. Get a copy of a contact list for these people and store this for reference.

#### GETTING TO KNOW YOUR SCHOOL/KURA IN DETAIL

Regular events

and the school/kura

calendar

It is important to develop a detailed understanding of each school/kura you will work in. This detailed knowledge will help you provide a better service for each school/kura.

For each school/kura you work in, answer the questions below. What type of school is it (e.g. primary, intermediate, kura kaupapa Māori, composite)? What is the decile level? How many children attend the school/kura? How many staff work at the school/kura? What ethnicities are the children and their families? Many schools/kura will have a meeting to discuss children who require support. Find out if your school/kura does, when it is, and how to become involved. Are there any other regular meetings that you need to be aware of or attend? Where can you find information about weekly events in the school calendar?

## MEET THE CHILDREN

It is important that you begin to build relationships with the children in your school/kura, and you must be sensitive to their needs.

When you first visit the school/kura you will be introduced to the children in a variety of ways. For example:

- at assembly
- · while on a tour of the classroom
- · while walking through the playground.

Before you meet the children in your school/kura, take some time to think about how you will interact with them. It's important to make the right impression! You will be a role model for the children.

#### Think about:

- the type of language you will use (it should be appropriate)
- the kinds of questions they will ask you and how you will respond to them

#### **SCENARIOS**

Now that you know more about the schools/kura you'll work in, it's a good chance to practice responding to some situations that can occur at school/kura.

Read through the scenario below, and jot down how you would respond to the questions. Once you're done, sit down with a colleague and discuss your answers. You can also discuss them at your supervision meeting.

#### Scenario

You meet with the teacher of a child to discuss how the two of you can work together to help the child. During the course of the meeting, you have a disagreement about what the best approach is.
